

WELCOME TO

Runway Flight Simulators would like to thank you for choosing our company to deliver your thrilling flight simulator experience, irrespective of which of our aircraft from our fleet that you have chosen.

We welcome you and your family and friends to our simulator centre and hope that everyone has a great time.

What to do first

If you have received a specific voucher, or perhaps have received a voucher with a monetary value, from a friend or a loved one - It's time to fly either a Boeing 737-800 commercial airliner, a post war Vulcan B.2 nuclear bomber or our unique pair of WWII MkIX Supermarine Spitfires.

Simply contact our Operations Team and they will be able to help you to book in your experience at the earliest available opportunity or on a date of your choosing, so that you can plan ahead for your experience.

Our Operations Team will also be able to assist you with any specific requests that you may have for particular routes or airports that you may wish to try as well as discuss with you some of our unique experience enhancements that we are able to offer, in order to make your time with us as exciting and rewarding as possible.

Please redeem your voucher by contacting our Operations Team at bookings@runwaysim.com or calling on 0161 359 8558

What to expect

ARRIVAL

Upon arrival at our simulator centre, usually 15-20 minutes before your session is due to start, you will be welcomed by dedicated members of our reception team who will offer you complimentary drinks and a tour of the facility whilst you wait in our airport style first class lounge or our military briefing area for your flight briefing from one of our qualified instructors.

BRIEFING

Our team of instructors will take you through the proposed flight plan and offer expert tuition on how to operate the aircraft to the best of your ability as well as show you how to make the best use of your flying time with us. All our aircraft will be flown as they should do, are very realistic and offer a totally immersive experience to you and any passengers that may be flying with you. This will involve getting to know the instruments and controls as well as tuition on how to fly the aircraft and complete your mission

Our Boeing 737-800 is almost identical to the real aircraft and can be flown to and from over 24,000 different airports in the world and offers real world scenarios, weather and emergency procedures.

The Vulcan B.2 nuclear bomber offers a range of tactical missions, low-level flights and is a real challenge to fly at speed whilst avoiding the terrain.

The Spitfires are very real and show what it must have been like not only to fly this iconic aircraft but also in facing the enemy over Southern England, the English Channel and France.

Your time with us can be tailored to your own requests, subject to your flying ability, as some scenarios are more challenging than others, so if you have a specific mission in mind, a particular airport that you would like to fly to and from or would like more advice on handling techniques, simply ask our instructors during the session. If you are enjoying your experience so much and wish to take advantage of some of our flight enhancement packages, this can be arranged on the day, subject to there being the time available.

We welcome any of your non-flying guests, who are free to wait in our lounge or military briefing areas whereby they can watch your flight on monitors or can potentially join you in the cockpit. If you are flying in our 737-800, we also have a fully immersive cabin that can accommodate up to 12 passengers who can watch your flight from monitors, watch through the open cockpit door or even join you in the jump seat. They can also see the flight as you take off and land from our realistic cabin windows. In addition, anyone that comes with you can take as many pictures or videos as they like during the session and are free to use them on any social media platform.

During the session

SESSION END

At the end of your flight, you will have the opportunity to discuss your flight with the instructor and have photographs taken with you and your passengers in the cockpit. You may be advised to take a few minutes before you leave the premises, as our flight experiences are so realistic, you may feel a little overwhelmed and may need to take a breath, especially before driving. Our team will be on hand to assist in any way.

Our shop offers various merchandise and memorabilia, including framed photographs and certificates of your experience, so our reception team will also be able to assist you with any shop purchase and additional flight experience you, or any of your family or friends, may wish to purchase for themselves or another loved one.

Any additional flight experience vouchers purchased on the day will benefit from a 10% discount off the normal price.

Finally, we hope that you have a great time with us and welcome any feedback, positive or negative, that you may have. If you are happy then please tell others, if you are not, then please tell us.
